*This Agreement pertains to the Home Inspection Only. These auxiliary services are provided separately from the Home Inspection.

Maintenance and other items or issues may be discussed during the inspection and in the written report, but they are not part of the inspection. The report is not a compliance inspection or certification for past or present governmental codes or regulations of any kind.

Home Inspection Law

The Home Inspection and this Agreement comply with and reflect the provisions of Act 114, Section 75, known as the Pennsylvania Home Inspection Law. The Client acknowledges and agrees that the purpose and scope of the Home Inspection of the Property by the Inspection Company is to discover readily visible, apparent or obvious Material Defects at the time of the inspection and assist the Client in evaluating the overall condition of the Property and provide an inspection report describing the Material Defects according to the Standards of Practice and Code of Ethics of a Pennsylvania State compliant National Home Inspection Association*. A Material Defect is defined as follows: "A problem with a residential real property or any portion of it that would have a significant adverse impact on the value of the property or that involves an unreasonable risk to the people on the property. The fact that a structural element, system or subsystem is near, at or beyond the end of its normal, useful life is not, by itself, a Material Defect."
